

EAST LIFESTYLE STORE

THE furniture in a house is a pronounced reflection of personalities that live there. And this awareness has made people gravitate towards stores that provide a niche, creative and exclusive range of products. Although tastes and preferences differ, few compromise on utility. Here is a store that offers all this and more.

The East Lifestyle Store in Bangalore specialises in recreating classic furniture from old photographs. Ever wished someone had preserved your grandpa's rocking chair that you so fondly remember? This store is, in fact, a revisiting of old English and Victorian collections, an elegant expression for a home. Colonial Outpost, their pure timber collection of furniture is styled as a reminiscence of colonial and Art Deco periods.

Responding to the interest and demand in contemporary furniture by the customers; East Lifestyle introduced its more progressive collection called Sublime. Hence,

you can now find contemporary furniture that is clean and minimalist and as alluring as the old. This is hi-end furniture meant for a discerning audience who do not scrimp on quality. The store has an interesting mix of machine-made and hand-crafted furniture as also a wide range of old and new styles meant to enhance interior spaces.

Furniture here is made from high quality timber. Burma teak, *sheesham*, rosewood and mahogany are popular but substitutes are employed if the client insists. The finesse and detailing in their furniture line is the effect of skilled craftsmen at work.

The store also has designer accessories such as lamps, shades, clay pottery, mirror frames and wooden bowls. They also offer a one year guarantee for any raw material or manufacturing defects. Elegance just found a new definition here.
